2017

WHERE DO WE STAND?

POL'HOP, A YOUNG BRAND... ALREADY SHAPED FOR THE WORLD

The story of POL'HOP began far from the spotlight, in a small office in the south of France, on July 1st, 2017. But the ambition was already big.

At the origin, a man: Xavier BESSARD, with **30 years of experience in international cleaning products**. He founded BALMORAL INTL to offer French brands **tailor-made export support**.

Very quickly, major names trusted him to export their brands :

Maison Verte - You - O'Cedar - Baranne

Celd - Michelin - Bo Paris - Babyliiss -
Anne Faugère - Logis Bleu...

Centrakor - Sitram - Geneviève Lethu...

Expertise speaks for itself !

But an idea begins to grow :

What if this expertise, this agility, this passion... **became a brand in its own right ?**

2020

BIRTH OF POL'HOP: A 100% INTERNATIONAL VISION

In 2020, our greatest creation comes to life: POL'HOP, a cleaning product brand designed for the world! From day one, export is at the heart of the project. Our network is secure, **no grey market, no surprises for our partners**. Proximity, even 5,000 km away, is our priority!

Brooms, sponges, gloves, clothespins... **Every one of our products is carefully designed, rigorously tested, and dressed in a modern design.**

POL'HOP is more than just a name: it's a philosophy.

Effective products

Lasting quality

Affordable prices

Tailored support

Close relationships with our partners

Adaptability to different markets

pol'hop
Make it easy!

2021

FROM PROXIMITY COMES EFFICIENCY

We are also strengthening our partnership with HERITAGE (formerly SWANIA), owner of iconic brands such as Bonux, Vigor, Baranne, Minidoux, O'Cedar...

A **collaboration built on trust and performance**, continuing a shared history and supporting our long-term growth.

2022

A STRONG DIGITAL STRATEGY

Starting in 2022, we launch our corporate website www.balmoralintl.com, followed by the site dedicated to our brand www.polhop.net, with support from the ACTI NAGA agency in Lyon.

Our newsletters are revamped to keep you better informed.

Our brand identity begins to take shape to speak with a single voice:

- The voice of efficiency and simplicity.

2023

CALOGISTICS SHIFT AND STRUCTURING

In August 2023, a logistical turning point takes place: we partner with LE ROY, a modern service provider based near Marseille, offering us 36,000 m² of storage and full control over our supply chain.

At the same time, Marc GUYOMARD joins our team to oversee, more specifically, procurement and financial management.

2024

HEADING TOWARD NEW MARKETS

In 2024, POL'HOP accelerates its international expansion with ambitious prospecting in Israel, Saudi Arabia, and India.

Russian-speaking countries benefit from closer support thanks to the arrival of Ramazan KURAMAGOMEDOV, who takes over sales administration.

He also launches the Russian version of our website www.polhop.net to support this growth.

2024

PRODUCTION REFOCUSED ON EUROPE

At the same time, we are refocusing our production tools on Europe. We've understood that to be a leader, you have to make bold choices:

We said yes to European quality,
No to uncontrolled low-cost production.

Our Turkish partner factory is phased out, and now 95% of our products are manufactured in France, Spain, and Italy, a **guarantee of quality, responsiveness, and transparency.**

Only microfiber cloths (China), coco brooms (Sri Lanka), and gloves (Malaysia) remain produced outside Europe.

2025

TEAM EXPANSION & MARKETING STRATEGY

In 2025, the team continues to grow to support POL'HOP's expansion.

Ramazan KURAMAGOMEDOV joins the adventure full-time to lead sales administration, **ensuring smoother and more responsive customer service.**

Shortly after, Alexis NOUET joins the team. In charge of prospecting, he actively contributes to **business development** while supporting marketing initiatives.

Continuing this momentum, Benjamin MEUGNOT joins the company as a Marketing and Sales Officer. His mission: **to strengthen brand visibility and promote our products to distributors.** The website has been redesigned, and product videos relaunched on social media.

In parallel, our field presence is expanding:

Since 2021, Marc OUEDRAOGO has been our sales representative in Côte d'Ivoire. His local presence ensures **responsive support, smooth communication, and a strong foothold in the market.**

In Cameroon, Christine EPETIT plays a key role. Her knowledge of the field and close ties with local stakeholders ensure **targeted, effective brand development.**

RAPID GROWTH AND BOLD STRATEGIC CHOICES

Our strength: the ability to act fast, innovate, and adapt, with product line launches in just a few months and a presence in over 50 countries, especially in the Middle East, Russia, and Africa, **where we are now a market leader.**

To support our growth, we took the time to shape a strong brand identity, true to the POL'HOP spirit.

A strong visual identity:

- A simple, modern, and easily recognizable logo.
- Bright, dynamic colors: bright green for freshness and visibility, **silver grey** for elegance.

An active digital presence:

- A **trilingual website** (French, English, Russian) — soon to be quadrilingual with Arabic — regularly updated.
- A **monthly newsletter** to keep up with our latest developments.
- **Product videos** published in multiple languages on LinkedIn, Instagram, TikTok, and Facebook.

Today

RAPID GROWTH AND STRONG STRATEGIC CHOICES

Customized marketing tools:

- **Product catalogs** adaptable to customer needs.
- **POS supports** reflecting POL'HOP's image: ties, shelf stoppers, sleeve protectors, edge strips, etc.

New markets are opening up. New ranges are being invented.

And one thing remains unchanged:

POL'HOP is not just a brand. It is a partner.

For distributors. For consumers. For those who want more simplicity in a complex world.

Our goal is clear:

To become **THE global benchmark** in household products.

Without losing our DNA: human, agile, demanding.
